Instead, in the effort of providing you with timely, accurate information we have chosen to present the Summer Program Guide online only, on our websites at wdparks.org and saltcreekgolfclub.com. ****Please note that during this time all programs and offerings inside the Summer 2020 Program Guide are subject to change.***

Please check back frequently to see updated changes in this brochure. We will do our best to communicate rescheduled and cancelled programs to you through our website, Facebook and Twitter pages, and by email. To be added to our e-mail list please sign-up on our homepage at wdparks.org and [follow us on Facebook](#) to see the most up-to-date information.

Message From the Executive Director

Dear Residents;

I originally prepared a different introductory letter for this Summer 2020 program guide, but in light of current circumstances, I decided it best to modify my message. No one imagined that we would be in these unprecedented times of social distancing. Not being able to have face to face contact with our residents is hard for all of us.

With the ever-changing state of COVID-19, this program guide will not be printed or mailed to your homes. Instead, in the effort of providing you with timely, accurate information we have chosen to present the summer

brochure only on our website. We understand this may not be some residents preferred method of accessing the information, however, it allows us to assure that the information is more up-to-date and not confusing.

As of this date, the Park District has furloughed most of our part-time and seasonal staff due to the fact that the programs and facilities where they work are not able to operate. This was a terribly difficult decision, but, as stewards of your tax dollars the board and administration felt that this was the most responsible decision for our community. This does not mean they won't come back.

It means that they will return after the Executive Order has been lifted and it is financially feasible to do so.

Since our closing on March 16, staff has provided some free programs on social media as a means of staying connected and engaged with all of you. We've reached out to our participants, including our preschoolers and beloved senior citizens. Now, that the Governor's Executive Order has been extended to at least April 30, we are changing directions and will be presenting some fee-based internet programming options for our residents to enjoy. Registration will be done online, and programs will be held in live and video format on social media, and through email links. By signing up for fee-based programs you will be able to learn a new skill, keep your mind challenged and in some cases, interact with others. This programming measure will also support small businesses by allowing us to use some of our contractual partners, and in some cases justify bringing back staff who have been furloughed to teach these programs. The only way we can do this is if we have fees to support their wages.

Our mission has been to serve the community with quality recreational experiences that provide a fun and healthy lifestyle. While we are having to create new ways to fulfill that mission, we are still as dedicated to carrying it out as we were before. We know it's not the same as learning and playing side-by-side, but one thing that hasn't changed is that recreation still provides respite from stress and enhances our bodies; physically, mentally and emotionally. We need that now, more than ever. We appreciate your support during this time. We wish you and your families all the best.

NEW!

This year, Wood Dale Park District will kick-off a new program, Green 360. Green 360 is a program that encourages eco-friendly living in the community.

Currently, Wood Dale Park District has many green initiatives that conserve energy resources and reduce waste consumption. However, we felt that we could take our efforts further by focusing on one eco-friendly initiative each year.

For the next year, Wood Dale Park District's Green 360 program will focus on the reduction of paper waste.

Are you interested in joining the Green 360 program? Take advantage of our environmental programs at The Woodlands. In addition, there will be frequent educational resources shared to our Facebook page and website.

To kick off Green 360, we are hosting a challenge!

Take a photo that describes your Green 360 initiative with a caption! In your caption, include, #WDPDGreen360, and tag us on Facebook to be entered to win some eco-friendly gifts!

We will announce the winner on our Facebook page and email newsletter on Wednesday April 22 in honor of Earth Day!

For more information, be sure to follow us on Facebook @wooddaleparks and join our email list at wdparks.org.

Meet Rob Michalak, PGA

Rob was born and raised in Wood Dale, and Salt Creek Golf Club is actually one of the courses where he learned how to play the game. Rob has 20 plus years' experience working and providing golf instruction at top ranked facilities like Medinah Country Club, Omni Tucson National, Marriot Chardonnay Club, Dick's Sporting Goods, and Bridges of Poplar Creek CC. Rob graduated from the Pro Golf Management Program at Ferris State University in Big Rapids, MI. Rob is a Class A PGA Professional Member of the Illinois PGA and the PGA of America.

Summary of Rob's Teaching Philosophy

Rob will start the lesson by interviewing his students with basic questions like: What goals and expectations do they have for themselves, and from taking lessons? Has their equipment been fit for them? Do they have any physical limitations? These are critical factors that help understand from where each individual is coming. Rob is a big proponent of focusing on the basics like grip, setup, stance, posture, alignment, ball position, face angle of the clubhead at impact and swing path. Students will learn a basic understanding of how all these factors effect ball flight. Students will also be given drills to help them improve and will receive a basic understanding of how they can self-correct their swing faults. Slow motion video is used to help see key swing factors, and more importantly this will help the students identify exactly what is happening.

If the Park District is unable to resell your ticket, you will forfeit your complete registration fee.

Vandalism

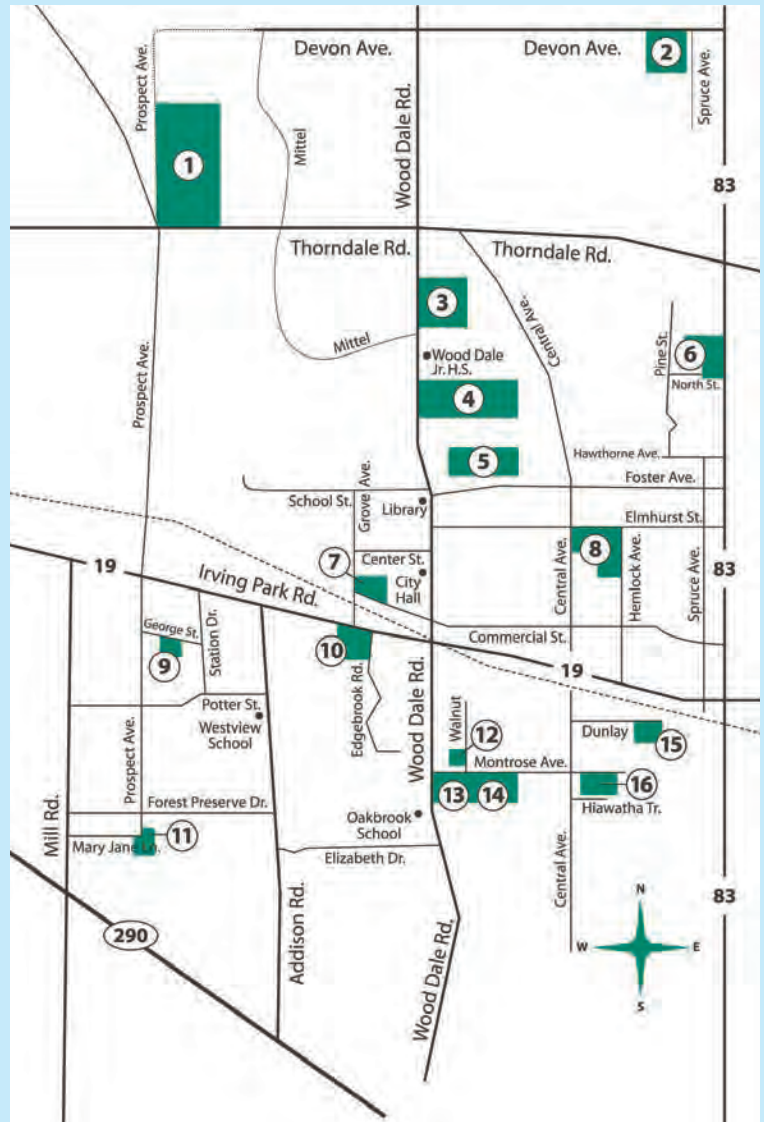

Vandalism certainly is not a unique problem to our community, but your help and support is the solution to the problem. Become an interested citizen and call your Park District OR Police Department if you see any acts of vandalism occurring. Your tax dollars are wasted on vandalism repair, so please get involved.

In addition to calling and reporting vandalism, what can you do? You can teach your children to respect the property of others. Know where your children are and what they are doing. Set a curfew for your children, and enforce it!

Any vandals caught will be prosecuted and required by law to reimburse the Park District for damage and any other associated costs related to the incident.
